

NV04HS4P

4 Channel Compact 1U 4PoE Network Video Recorder

- · H.264+/H.264 codec decoding
- Max 80Mbps incoming bandwidth
- · Max 4 channel IP camera inputs
- Up to 6MP resolution preview&playback
- HDMI/VGA simultaneous video output
- · Support IPC UPnP, 4PoE ports

System Overview

The EZ-IP series is perfect for small to medium size applications like home/residential security, small retail shops, and other typical SMB applications. It offers a perfect alternative to migrate from analog to an IP system with its easy to use nature and cost effectiveness.

The EZ-IP series is fully in line with Dahua's quality assurance protocol. Various tests such as anti-vibration, water resistance, and aging tests are performed to ensure Dahua quality standards.

Functions

Smart H.264+

Delivering high quality video without straining the network, Smart H.264+ is the optimized implementation of H.264. The Smart H.264+ encoding platform includes a scene adaptive encoding strategy, dynamic GOP, dynamic ROI, flexible multi-frame reference structure and intelligent noise reduction, providing a savings of up to 70% of bandwidth and storage when compared with standard H.264.

ANR (Automatic Network Replenishment Technology)

Network Video Recorders with the ANR function automatically store video data on an IP camera SD card when the network is disconnected. After recovery of the network, the NVR automatically retrieves the video data stored on the camera.

Easy4ip

A smart home security system connects to your home Wi-Fi network so you can monitor and control your security using your smartphone and Easy4ip cloud and app. It allows you to do things like view live and recorded video for your daily life. The store recorded video locally on an SD card or cloud storage. Cloud storage makes it easy to store and access recorded video.
